from aggregated **in**dustrial **pr**osumers

LEONARDO is an EU-funded project that helps industries use energy more efficiently by unlocking collaborative industrial demand flexibility through the aggregation of diverse Energy Management Systems (EMSs).

The Figures

11 Partners

1.75 M€ Funding

6 Countries

36 Months

The Solution

Link energy systems
 Connect diverse industrial Energy Management Systems to enable coordinated flexibility.

Support grid stability
 Help balance Europe's energy system.

Demonstrate solutions
 Validate flexibility services in real environments.

Promote replication
 Develop tools that support a wider market adoption.

The Pilot sites

ITALY
 Storo Industrial Cluster

AUSTRIA
 Southeastern Styria

BULGARIA & GREECE
 Transnational Cluster
