RINA is a global player which contributes to the sustainable development of the worldwide community, providing a wide range of high-quality, tailored solutions throughout the asset lifecycle in the Marine, Certification, Energy, Infrastructures and Mobility, Real Estate, and Industry sectors.

RINA aim is to deliver clear and innovative solutions that improve the wellbeing of society, as well as to build sustainable values for future generations, in line with ESG objectives, by simplifying complexities through skills, knowledge, expertise and experience.

RINA is therefore committed to:

- promote quality and provide high quality services in compliance with both the applicable standards and regulations and with the principles of the RINA Code of Ethics,
- operate in the interest of the community, contributing to its sustainable development through human life and environment protection; the safeguard of rights, well-being and interests of people and communities; a well-structured and transparent corporate governance,
- ensure objectivity, impartiality, and independence,
- continuously improve the quality of services and the level of customers' and interested parties' satisfaction, through a better understanding of their needs and expectations,
- consolidate its reputation and professionalism, adopting suitable programs, objectives, and commitments as far as the quality of services and the competence of personnel are concerned.
